DETAILED ACTION

The examiner acknowledges receipt of request for extension of time, amendment and remarks filed 02/07/08. Claim 9 is amended to recite specific groups from which the hydrophobic groups are selected from. Claim 9 is pending.

Markush Language:

Claim 9 uses a Markush claim language where “comprising” is used instead of--- consisting of--- Correction is respectfully requested in which the hydrophobic group is selected from the group consisting of.

Response to Arguments

Previous rejections that are not reiterated herein are withdrawn.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 9 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

This is new matter rejection.

Art Unit: 1618

4. Amended claim 9 requires the compound containing hydrophobic group to be “hydroxysuccinamide” or “perfluoro-1-octanesulfonyl fluoride.” However, the specification as filed envisions hydroxysuccinimide and perfluoro-1-octanesulfonyl fluoride (see page 26, line 9; page 27, line 8; page 30, line 12; page 32, line 18).

5. Applicant may overcome the above rejection by reciting the compound containing the hydrophobic group that is envisioned at the time of filing.

6. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Amended claim 9 has recites “perfluoro-1-octanesulfonyl fluoride” and it is unclear what octanesulfonyl is. Clarification is respectfully requested.

Other Matters: It is also brought to applicant’s attention that while claim 9 2) is directed to water soluble polymer, it appears that carboxymethylcellulose and polyimnodiacetamide are water insoluble polymers.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1618

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
